

Valet Parking System (SaaS)

Challenges

This company's innovative valet systems have been installed in over 120 properties across the US and Canada, including Wynn and Encore Resorts Las Vegas, Bellagio, the Borgata, Foxwoods, Mohegan Sun, in addition to multiple MGM Mirage, Caesars/ Harass Entertainment, Pinnacle, Penn Gaming, and Isle of Capri properties and many more. Reducing claims, maximizing employee performance, measuring service levels and recognizing your most valuable VIP players are just a couple of reasons why our cvps.net technology produces some of the highest and fastest ROI. The most popular casino valet systems are equipped with our patented High Definition Digital Camera lane technology, VIP Request kiosks, cvps.net valet management software and smart mobile technology for enhanced customer service and real-time management.

The challenges

The challenge was to deliver mobility parking system with fully automated solution and with single iOS application will sever you all the business needs whether its reports, setting, global permission across global customers, properties, maintenance.

- On the fly reports instead of big xls sheets, tables
- SMS parking, payment through SMS
- There is HUGE printing and maintaining the pre-printed parker tickets
- Hardware integrations

The solutions

- To develop a **MULTI-TENANT SAAS** architecture solution to make this a cloud centric solution which is a single point of maintenance with shared database and dedicated server boxes
- Come up with a sync engine - which stores images of vehicles in local and sync with other devices on the fly based on WIFI & BLUETOOTH based on what is available
- Point of sales with iPad, iPad mini, iPod & iPhone
- Air printing the receipts with Wi-Fi printers
- Bluetooth printers - BLUE BAMBOO - you can print the receipt using blue tooth
- We provided best Bar/QR coded tickets which is usable in the iOS devices to scan the Tickets to avoid that printed tickets
- We integrated almost all leading hardware for POS, Printers starting Linea Pro, iDynamo, Blue Bamboo, NetSwipe, Card.IO etc.
